

Bluetooth Combo Adapter

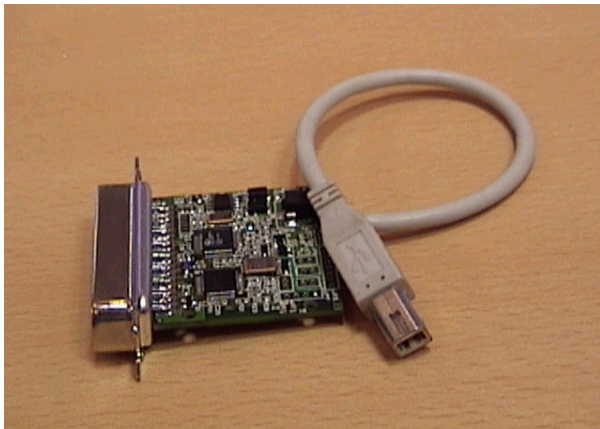

The Bluetooth Printing Solution provides a low cost, short-range wireless solution for printing documents from any Bluetooth enabled device, using HCRP, SPP and OPP profiles. The adapter has a USB connector on one end and a Centronix connector on the other.

AdamyA Combo Printer Adapter is a pure plug-and-play device. You can connect the printer card to any legacy printer with parallel port or USB port and send print requests from any Bluetooth enabled device.

The kit includes a printer card with 36-pin Centronix parallel port connector, USB connector and necessary software for the PC/laptop

The adapter is powered externally when connected as an USB adapter. The adapter can draw power from Centronix connector Pin 18 (if power source is available) else draws power from external source.

AdamyA Combo Printer Adapter comes with an external power jack and in cases where the printers do not provide the power, external power source need to be used.
